

LENAPE VALLEY REGIONAL HIGH SCHOOL

Thomas E. Claeys, Jr., Principal

September 9, 2016

Dear Lenape Valley Families,

Some concern has been raised in our community this morning about a student at Madison High School who was evaluated for viral meningitis, which was announced by their Superintendent, Michael Rossi on September 5, 2016, and our football game on their campus tomorrow, September 10. At this time, Madison High School is open and classes and extracurricular activities are taking place as scheduled. In speaking with the Madison Health Department, I was informed there has been one investigation and Madison High School has been open without interruption.

I invite you to check out the viral meningitis fact sheet on the New Jersey Department of Health's website, which you can reach via the hyperlink below.

http://nj.gov/health/cd/documents/faq/viralmeningitis_faq.pdf

If it is your wish to keep your child from participating in tomorrow's activities at Madison High School, they will suffer no penalty regarding their involvement in their respective programs.

Most sincerely and respectfully,
